

SCIENTIFIC ASSISTANTS/STUDY DIRECTORS (m/w/d) in Vienna / Austria for 40 hours a week

Virusure is a biotech company specializing in virus & prion safety testing of biopharmaceuticals. We are a GLP/GMP certified control laboratory that offers services in the area of pathogen safety to the bio-pharmaceutical industry. In order to strengthen our team in Vienna we are looking for highly motivated candidates with biotechnological and industrial background and knowledge about GMP and GLP to support the **GLP virus and prion safety testing group** as future GLP study directors.

GLP virus & prion studies department -Tasks & Responsibilities:

Our GLP group validates biopharmaceutical companies down-scaled process steps for their ability to remove or inactivate virus. Process steps commonly evaluated are chromatography (IEX, affinity, HIC...), virus filtration, precipitation, low/high pH, Solvent/Detergent and heat treatments or other specific steps.

- Planning and performance of cell culture assays and western blot assays.
- Support to Study Directors for the performance of the process steps, data analysis, interpretation, and reporting.
- **Following study director training:** Conduct of GLP virus and prion studies: communication with clients from the design until completion of the study including the preparation of study plan, lab protocols and final report.

General Responsibilities:

- Strong focus on quality by ensuring GDP compliance.
- Report to superior and Quality assurance
- Creation and administration of GLP and GMP compliant laboratory documentation

Your Profile:

- **Education in Biotechnology**, Biology or related Life Sciences fields (HTL, MTA, B.Sc., M.Sc., PhD)
- **GLP/GMP** knowledge and experience is an advantage
- Experience in the **bio-pharmaceutical industry** is an advantage
- Experience in **biomolecules purification techniques**, downstream processes such as chromatography (e.g. AKTA), filtration, precipitation steps is an advantage
- Accuracy, diligent, organized and proactive
- Very good knowledge of English and good IT skills
- Very good communication skills.
- Willingness to work with infectious biological agents (i.e. viruses or prions)
- Willingness to wear personal protective equipment when handling biological agents, chemicals, etc.
- Willingness to learn, flexibility, team spirit.

VIRASURE

Quality is no coincidence

What we offer:

- Full-time position (40 hours) in an established company with flat hierarchies and short decision-making paths
- A high degree of personal responsibility and a large amount of freedom to make decisions
- A lot of freedom for personal and professional development and training
- A dynamic, friendly and exciting growing environment
- Regular team and company events in a relaxed atmosphere
- Salary according to experience

How to apply?

If you are interested in this exciting position, a friendly working environment is important to you and you want to support our team, please send your CV to: Fr Dijana Vasiljkovic (Assistant to CEO) humanresources@virusure.com
